PROFILE INFO

Gender Male
Born on 1983
Status Employed
Location Saudi Arabia
Time Zone UTC+03
Experience 10 Years

EDUCATION

2013 - Master
MSc Telecommunication
2010 - Bachelor
BSc Computer Science

LANGUAGE SKILLS

SENIOR BI DEVELOPER

Summary

Why me:

- A highly versatile IT professional with professional certifications and training to credit.
- 5+ years of brilliant track record of managing high-end IT projects with competencies in conceptualizing and supporting critical IT frameworks and applications.
- IT Projects Management: Technical coordination; team management
- Analysis, specification, and design of IT applications Benefits
- Test 1
- Test 2

Skills

Application Management

AWS

Architecture

Docker

Coding Languages and Protocols

Python

Visual Basic

Data Engineering

SQL Server Reporting Service (SSRS)

Microsoft SQL Server

ETL

SQL Server Integration Services (SSIS)

Process Frameworks

Requirement Engineering

Tools and Platforms

Jira

Git

Power BI

Certificates

- 2019 - Datacamp Certified: Data Analyst
- 2022 - Microsoft Power BI Data Analyst Associate

TELEFONICA GERMANY

Telecommunications

01/2017 - 08/2022

SAUDI TELECOM SOLUTIONS

Telecommunications

SENIOR BI DEVELOPER

POWER BI DEVELOPER

- Working in Telefonica on RAITT Project as a Power BI Developer.
- Created Appealing reports/dashboards linked with Jira Rest API

Telecommunications BI Specialist

- Responsible to create and develop compelling reports and dashboards in MS Power BI using advanced DAX.
- Implementing SSIS and SSRS using SQL Server data tools (SSDT) and Power BI
- Understanding of business requirements to set functional specifications for reporting applications
- Developing SSIS Packages to Extract, Transform, and Load (ETL) data into the Data warehouse from SQL Server.
- Reviewing current reporting and export these reports into Power BI.
- Identify new analytics trends and opportunities to drive the innovation agenda.
- Connecting to data sources, importing data and transforming data for Business Intelligence.
- Ability to quickly stage & shape data from data sources into reporting and analytics solutions.
- Responsible for design methodology and project documentation.
- Developing tabular and multidimensional models that are compatible with warehouse standards.
- Properly understand the business requirements and develop data models accordingly by taking care of the resources.
- Integrating Power BI reports into other applications using embedded analytics like Power BI service (SaaS) and by API automation.
- Experienced in developing custom visuals for Power BI.
- writing ETL processes in batch mode and in Real-time.
- Having strong experience in Financial Services utilizing tools and systems on the MS SQL Server BI Stack, including SSRS SSIS, SSAS, and TSQL, Power BI, Power Query, MDX, and DAX.
- Having knowledge and experience in prototyping, designing, and requirement analysis.
- In-depth understanding of database fundamentals, including relational database design, multidimensional database design.
- Excellent in analytical thinking for translating data into informative visuals and Develop automated reports, dashboards and KPI scorecards using Power BI.
- Implement row-level security on data and understand application security layer models in Power BI.
- Expertise in using advanced level calculations on the data set.
- Developing, publishing and scheduling Power BI reports as per the business requirements.
- Capable of handling multi requests and activities.

PROJECT REFERENCES

07/2008 - 12/2016

Detecon Al Saudia (Deutsche Telekom)
Telecommunications

SENIOR BI DEVELOPER

Telecommunications Specialist

- Design GIS based MAP of Telecom Network with the help of ESRI ArcGIS (Network Engineers Tools), Geo special analysis.
- Develop Project routine reporting weekly, Monthly Quarterly.
- Report automation using Excel VBA.
- Developed complex MS SQL queries using stored procedures.
