LEAD DATABASE DEVELOPER

Summary

I am a lead database developer with 19 years of professional experience in developing and integrating IT solutions for various domains and industries. I have strong expertise in database design, development, optimization and tuning, as well as data analysis and reporting. I have also successfully managed and coordinated several IT projects, leading teams of developers, analysts and testers, and ensuring the delivery of high-quality solutions within budget and time constraints. I have proficient skills in SQL, PL/SQL, Oracle, MySQL, PostgreSQL, MongoDB, Python, Java, C#, .NET, and other technologies. I am passionate about solving complex problems and creating innovative and efficient solutions that meet the needs and expectations of the clients. I am also a lifelong learner who constantly updates my knowledge and skills with the latest trends and best practices in the field. I am looking for new challenges and opportunities to apply my expertise and contribute to the success of your organization.
