LEAD BI CONSULTANT

BI Developer |

Summary

I am a Lead Power BI Developer with a passion for data analytics and a strong background in IT. With professional certifications and 16 years of experience in Analytics & Big Data, Power BI, and Performance Management, I bring a wealth of expertise to the table. My skill set includes proficiency in various software tools such as R script and Python, as well as Power BI, Power Query, SQL, Oracle, SAP, Excel, VBA, PowerPoint, and Word. I also have a solid understanding of accounting principles, IFRS, financial analysis, and automation. Currently, I am pursuing courses in Strategic Business Analytics at ESSECS Business School to stay updated with the latest industry trends. My versatility and commitment to continuous learning allow me to deliver effective solutions and drive data-driven decision-making processes.
