# SENIOR BI CONSULTANT

BI Developer |

Summary

I'm a seasoned BI Consultant with over six years of experience in the MSBI technology landscape. I have a comprehensive background in SQL Server, SSIS, SSRS, SSAS, Power BI, and DWH, with a specialty in migrating BI solutions to cloud platforms. My professional journey has allowed me to work on diverse projects, from designing BI solutions for ERP & CRM modules to overseeing intricate ETL processes. I've implemented data solutions across various platforms and have a knack for building efficient tabular models. My strength lies not just in technical expertise but also in my analytical abilities, especially when delving deep into data from the financial and accounting realms. I'm known for my problem-solving acumen, clear communication, and ability to navigate complex requirements. I believe in fostering collaborative relationships and always look forward to partnering with teams and product owners to bring forth top-notch technical solutions.
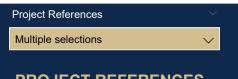

Skills

Application Management
Azure

Coding Languages and Protocols
Python
C#
T-SQL
